**Bible Reading Record**

You may find it simpler to set a goal of reading a certain number of chapters a day than to try and stick to some of the formal schedules that are available. They work fine for some people, but for others, the (false) guilt or discouragement that come from “getting behind” is not helpful. If you miss a day or don’t read the number of chapters you planned, you don’t need to go back and “catch up.”

By using various markings (circle, underline, line through, hi-light, etc.) and different color inks multiple readings may be marked on this sheet. The top part of this sheet will fit in most standard-size Bibles to use as a bookmark, or it may be fastened inside the cover so that it doesn’t get lost.
